Eckert Animal Physiology

Synopsis

This classic animal physiology text focuses on comparative examples that illustrate the general principles of physiology at all levels of organizationâ "from molecular mechanisms to regulated physiological systems to whole organisms in their environment.

Book Information

Hardcover: 752 pages

Publisher: W. H. Freeman; 5 edition (November 9, 2001)

Language: English

ISBN-10: 0716738635

ISBN-13: 978-0716738633

Product Dimensions: 9.3 x 1.2 x 10.9 inches

Shipping Weight: 4.5 pounds (View shipping rates and policies)

Average Customer Review: 3.7 out of 5 stars 20 customer reviews

Best Sellers Rank: #31,295 in Books (See Top 100 in Books) #7 inÂ Books > Science & Math > Biological Sciences > Biology > Entomology #8 inÂ Books > Medical Books > Veterinary Medicine > Anatomy & Physiology #18 inÂ Books > Textbooks > Medicine & Health Sciences > Veterinary Medicine > General

Customer Reviews

DAVID RANDALL, City University of Hong Kong. WARREN BURGGREN, University of North Texas. KATHLEEN FRENCH, University of California, San Diego.

This is a good reference book. I prefer the Hill et al. Animal Physiology, but I use both because each details things differently. If you are new the subject this is a great introductory text.

This is one of the books I learned physiology from as an undergraduate and now as a professor use it as a standard reference.

Great price for a very good no marking book. Shipping got here on time.

Vertebrate Physiology is a dry subject and this book makes it even worse. It was very little help in the class room and the professor very seldom referred to it.

I'm a biologist and I simply love anything biology related. This book reminds me of grade school biology, it's very easy to interpret.

Oh wow. I was thrilled for this class and I love animals so I was excited to read this book, but it turns out this is the most dull and boring book I have had so far. I have another textbook with some of the same material and it is far easier to read than this book.

4 stars

Amazing deal! In excellent collection!
