I got the whole set of 3! I love these books. They will come in very handy with my future makeup career. I have a really hard time putting myself out there as a makeup artist who's only been in the stream for 2 years. I have no professional training so these books will help with both practice, building a portfolio, and giving my clients choice to flip through. The books suggest getting a 3 ring binder and clear plastic inserts. I agree that this is a great idea! The pages have dotted lines along the inner edges so you can cut out the pages when done. The books also suggest to use dry materials and not liquid as they wont work well on the paper. If you are using these books to track when you did for a client, and you used a liquid foundation, I suggest applying just a small swatch on one side of the drawing. No need to color it in completely. I highly recommend trying these out if you are looking for more practice :)

I bought for my niece and she loves it - nice pics and easy to understand

I love these books! They give lots of practice sheets and more helpful information in the beginning of the book! And it was shipped super fast!

Great book for practice different looks. It takes a little getting used to as a beginner but it a great tool for trying new looks and colors.

Perfect for viewing different eye looks

Easy to use and document eye looks!

Great book for teens and or anyone wanting to learn new techniques/how to apply makeup.
