Customer Reviews

Like how this book doesn't talk about how easy it is to quit. It lays it all out there. It's hard and your going to war with your mind. Talks about putting a plan together. Quick read with a lot of information.

This book helped me to cut down and finally quit the nasty habit that has plagued my life for years. I never thought I'd be able to put cigarettes down, but this book not only showed me what I was doing to my body, but how I could quit in the easiest way possible. This book I would say is essential to anyone who wants to give up the smoke but needs a little jump start and motivation.

If you have tried to quit smoking without success you need to try the natural methods recommended in this book. I have tried so many times but nothing seemed to last. So far so good with Dr. Turners advice. Highly recommended. Save money by buying this book instead of buying Nicorette or a quit smoking patch. Try these natural methods first.

Good information, easy to read. Straight forward of all things that can happen! I keeo telling myself i can do it, but somedays it seems overwhelming. This really did a good job of breaking down exactly why and how.

This addresses most concerns in quoting and gives helpful tips to overcome. Helps to have a note pad next to you to take notes and make this more real.

I loved all the information that tells about side-effects when you quit.

If you're looking forinfo to help quit smokingyou've definitely havefound it. "Quit SmokingNaturally' is loaded withtips, ideas and strategiesto help you quit smokingsafely and effectively - Thanks!

I found this book to be insightful and realistic. It provided exactly what it says it will, while also giving me information about all of the other terrible side effects of smoking that I wasn't even aware of!
Great investment.
