Do not buy Kindle version! Resolution is so low, that maps are not usable at all. I wasted \$10 on this.

Great purchase

Great book and great information.

Heavy, glossy pages. Some of the river maps appear to have useful tips. However, overall I was disappointed with the amount of useful information.

This fishing guide is extremely detailed. I have used a similar guide in California with great success, and look forward to using this one in Colorado. The exceptionally detailed information combined with great maps make in an invaluable asset.
