Laurie's first published work was a note passed to a boy in elementary school. You would have thought that this most embarrassing moment would have stopped her writing career. But instead, Laurie is the author of thirty five books and author/illustrator of two more. Laurie lives in rural Ohio with her husband and two daughters and loves writing surrounded by horses, cattle, dogs, cats, and five turkeys. Buket Erdogan was born and raised in Istanbul, Turkey. After studying Turkish textiles, she moved across the ocean to New York to design children's clothing and illustrate children's books. She illustrated the Mouse's First series published by Simon & Schuster, three of which were New York Times bestsellers. She lives in Brooklyn with "the most inspiring artist," her daughter, Yagmur. Buket paints with bold colors of acrylic with lots of exciting textures of canvas.

This is a very sweet book. Great way to incorporate Jesus into Valentine's Day. It is simple and

short but flows well with good pictures. My two year old enjoyed it.

I loved this book that showed the true love of Jesus is always with us in our hearts! I chose it due to the fact I work at a preschool and it was a board book which meant it would hold up with many little hands using it. I highly recommend it.

My little ones wouldn't even sit down to look at it and they love books. Theologically boring. Not at all what I was looking for to inspire my little one.

I used this and the children loved it, they were fully involved and excited about the programme

Lovely little book, my kids wanted it read again and again. I particularly liked the end when it gives the children a concrete way to know Christ's love for them.

MY VALENTINE FOR JESUS a must for toddler and pre K , tells about Jesus and His LOVE

Love it. Great way to connect Valentine's day to Faith and belief in Jesus.

One of the sweetest books I have ever read for a child. I work with three and four year olds in church as well as having my own five year old grandson. They all loved this book and want it read whenever they can get it.
