Fingerpower: Effective Technic For All Piano Methods (Schaum Publications Fingerpower(R))

Synopsis

Educational Piano

Book Information

Series: Schaum Publications Fingerpower(R)

Paperback: 24 pages

Publisher: Schaum Publications (January 1, 2005)

Language: English

ISBN-10: 1936098172

ISBN-13: 978-1936098170

Product Dimensions: 9 x 0.1 x 12 inches

Shipping Weight: 3.2 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 15 customer reviews

Best Sellers Rank: #23,670 in Books (See Top 100 in Books) #34 in Books > Arts & Photography > Music > Theory, Composition & Performance > Techniques #109 in Books > Arts & Photography > Music > Instruments > Piano #117 in Books > Humor & Entertainment > Sheet Music & Scores > Instrumentation > Piano

Customer Reviews

Ever reliable- the basic Fingerpower books provide timeless techniques in an untiresome way. I use these books between curriculums bc they are slightly more difficult than the level they say (Schaum moves much faster than Bastien or Alfred- and much, MUCH faster than Faber). For example, for the Level 1 book, the student should begin that after completing Bastien or Alfred's Level 1 curriculum. Alternatively, it is often useful to substitute the Fingerpower book for the Alfred technic book entirely bc the Alfred technic books are merely excerpts from the Alfred Lesson assignment for that same week and do not- in my opinion- always provide for actual technic exercises. If you substitute Fingerpower for Alfred Technic, always go one level below for the Fingerpower. For Faber, it would be 2 levels below.

This book was required for one of my kids. The book came clean and she states it is useful and easy to follow. Piano skills are non-existent so I can't speak to the quality of the writing. But the book itself is well made. It seems to progress logically. And maybe most important it looks like it will hold up for more than 6 months. Also many of the songs in this book are performed in Youtube videos so I can check if my daughter is doing it right.

Purchased at the request of our piano teacher and it is just what my kids needed.

Great book, recommended by our music teacher. We have been using this series for awhile now.

great book.

Most kids like these books with exercises that increase finger dexterity. Makes great pianists!

Schaum has always been a good practice book for me. Great exercises.

This series is good for building strong fingers. I use this with Dozen a Day depending on the students need.
