# Star Wars®: Imperial Handbook (Star Wars (Chronicle))

## Synopsis

The exciting next book in the bestselling Jedi/Sith/Bounty Hunter series has arrived! The Empire has taken hold of the galaxy, and high-ranking officials from each branch of the military have created an Imperial Handbook, compiling tactical guidelines and procedures as well as mission reports and classified documents for all newly ascending commanders. This comprehensive manual details secrets of Imperial battle tactics, acceptable actions for bringing swift justice to traitors, and the Emperor's long-term plan for galactic military domination. After the Battle of Endor, this copy of the Imperial Handbook fell into the hands of the Rebel Alliance. Well-known rebels provide a humorous running counter-commentary to the official Imperial propaganda in the form of handwritten annotations in the margins of the pages.

## Customer Reviews

Daniel Wallace is the New York Times bestselling author of many books that explore the Star Wars® universe. He lives in Minneapolis.

Book looks wonderful, just like the other three in the "series". Wonderful details and artwork, the edges of the pages are gloss black and look really slick. Same overall size as the others, on the spine however, the publishers name, the line, and the glasses are bumped down about a quarter of an inch. Also the cover has a glossy finish, not a matte like the others. The book is great if you just want to read about the Imperial way and look at the artwork, its a real bummer that the spine looks

stupid on the shelf.

Read the entire thing in two nights and often re-read parts for reference, perfect for someone like myself who has started my own Galactic Empire!

Saw this at one of the Disney Parks and decided to buy it on as it was cheaper. This book is very cool and full of information that I didn't know about. Anyone who is a fan of Star Wars should have it.

What can I say? it falls in line with the other handbooks. the only thing I didn't like was the fact the other three books at a cloth like feel to it, where this one had a shinny smooth surface but when you think about it the empire would give their crew new and shiny items to bring them in.

Loved this book. Content, art, writing all top notch. Similar to the West End Games Imperial Sourcebook.

If you like Star Wars get this and if you love Star Wars then you should have already gotten it because it is a really awesome book. It describes the imperial tactics and war plans they had. I love the little notes the rebels put in them. Luke, Han and so many more characters share they're thoughts on the plans and tactics. They also talk about all the ships and vehicles the imperials have. It's really amazing to read about all the stuff they did and had plans for.

I wish this was covered in plastic for so there weren't any scratches but I am still satisfied.

Nicely made. My nephew loves it so I am happy!
