Customer Reviews

This book just didn't have enough information for me for the cost. Would have liked more detailed pictures and ideas.

First of all I have to say that I really like the idea of the mini trees! A perfect idea for my niece's doll house! I have been crafting for many years now and I was looking for some new ideas. I am very glad to have found this free book very well illustrated and described. If I had to buy it I would have done anyway... It's worth the money! I can't wait to make my first gem tree!!!

I really enjoyed this project. The author walked me through step-by-step on how to make the coolest little gem trees! I have so many ideas, especially after seeing all of her examples at the end. I've

always admired these gem trees, and now I can make my own :)
