Beautifully printed on good water resistant coated paper. Great detail for a part of the world that is hard to get good paper maps for.

The German-English map is useful for navigating outer Mongolia. I used it this summer on a 45-day mountain bike expedition, 2500km traveled and the map, combined with compass and a reliable Garmin GPS made the journey successful. The map is durable and water-resistant too, I would definitely recommend this product to others.
