Days In The Lives Of Gerontological Social Workers: 44 Professionals Tell Stories From "Real-Life" Social Work Practice With Older Adults

Synopsis

This book, like its predecessors *Days in the Lives of Social Workers* and *More Days in the Lives of Social Workers*, highlights the experiences of social workers through first-person narratives. This volume focuses on professional social work in direct and indirect practice with and on behalf of older adults. The contributors to this book are social workers at the BSW, MSW, and doctoral levels. Gerontological social work is a growing and exciting practice specialty! The stories told by these gerontological social workers will transform your thinking about what this type of work entails. You will gain a better understanding of the issues facing older adults and their social workers, and you may be inspired to pursue this career path. This engaging collection will make a welcome supplement to the theory found in traditional textbooks. Organizations, Web sites, additional readings, and a glossary of terms are included to assist you in further exploring these areas of social work practice. Photographs by social worker/photographer Marianne Gontarz York are featured to expand your visual images of real people as they grow older.

I like this book for my ASU social work class. Good stories.

I really like this whole series and this book just happened to go into more detail about one of the types of Social Work I am most interested in. As a current SW student I found it to be really helpful.

Great book. Perfect for anyone interested in geriatric social work.

This is a professional, pertinent and practical book.

I am a geriatric social worker and enjoy reading about the different places where we work!!! GREAT BOOK!

Much of the information in this book is useful. The lists at the back of the book are informative. The material is presented in a clear and interesting manner.

Bought this book for my niece who is getting her MSW in geriatrics. She has reported that she loves this book. Great purchase. She received the book in the time indicated.

As an MSW student who is interested in working in geriatric social work this book has been a fabulous resource as well as a great read. I would recommend it to any student who is interested in working with this population.
