Sacred Activations: 26 Essential Sacred Activations To Expand Your Gifts Beyond Mastery

Synopsis

Quite simply, when you heal yourself and your life using the Sacred Activations, you are shifting the planet from fear to love. As you heal yourself, you help to heal all of humankind. It's quick, easy and simple! This book takes you through the fascinating story of the author, Tamra Oviatt's journey towards becoming a healer, how she first received the activations, the understanding behind the process and how your deepest subconscious beliefs influence the reality of the world around you. Many people have benefited from Tamra's Sacred Activations. You have that chance too. So why allow yourself to be limited by those old programs of fear and limitation? Seize the opportunity now, and be one of the many people who are ready for this amazing shift towards love.

Customer Reviews

This book is an easy and interesting read, and I would definitely recommend it for anyone who is doing the activations, or who is considering doing them and would like to learn more about this amazing modality and about the collective consciousness. The first part of the book is about some of

Tamra's life experiences and how she came to receive the activations. The second part consists of transcribed conversations between her and a friend. They discuss various life issues, spiritual topics, and Tamra gives examples of how the activations have transformed people she knows. The third part is a transcript of the practitioner training, through which you learn about the foundational activations. Also included is a link to a video, which allows you to receive the golden seals to give yourself the foundational activations. One thing I really liked about this book is that there is a lot of wisdom and information--and it's relatable to real life experiences. You learn how to unplug from the collective consciousness of pain, fear, suffering, etc., and connect to the consciousness of unconditional love and abundance. A side note: I met Tamra earlier this year while on a tour of Egypt. I had never heard of her or her modality before. I ended up sitting next to her on a domestic flight and began to feel this incredibly strong energy. My entire body vibrated, pulsed, and tingled, and within a few minutes I experienced the most wonderful feeling of relaxation and peace. Initially, I was bewildered about the source of this energy, but knew it had to be coming through someone on the plane. When I discovered it was coming from Tamra, I was intrigued and got to know her during the rest of the tour. She is truly a lovely person--compassionate, generous, kind, and has a great sense of humor and wit. Upon returning home, I began doing the activations, and they are absolutely extraordinary! At this point, I've done the foundational ones and a few others (so have a long ways to go before I've completed them all), and I'm **AMAZED** at how powerful they are and how quickly they are shifting me. Already, I feel more compassionate and less judgmental of other people. The volume on my fears and negative emotions has been turned down, and the happiness and optimism has been turned up. I'm super excited about continuing with the activations and experiencing transformation. If I could go back in time and give my younger self one thing, it would be these activations. They are a huge blessing. If you haven't tried them, go to her site and download the first three activations--they are free. You won't regret it.

While I found Tamra's story fascinating, I found the style in which it was written a bit difficult to follow at times. (It's a transcript of a conversation.) However, I found the information to be profound. I did need to read it twice to fully make sense of the confusing conversational style of the writing. The links for the actual activations are not included in the book. But if you go to the Sacred Activations website you can get 3 free activations to get you started. I needed to use the contact on the website to get a free link to the Golden Seals Activation. The people who responded were very nice and genuinely helpful. I've done the first 3 activations 3x as recommended. I was skeptical. But I have been releasing old beliefs and did experience some of the symptoms they described in the book. I

am happy with the progress so far and plan to continue. I'm considering becoming a practitioner.

Firstly, the concept of Sacred Activations itself is a great. One gets the activations just by listening to Tamra that too just in 4-5 minutes. I have experienced these activations through recordings and they are really great..In the book, Tamra has given the background details and circumstances as to how the activations occurred. She tells her personal story too which itself is inspiring. The unusual format of the book (in the form of interview) also make it very simple and to the point.An inspirational book..

I have never read a book like this which makes awareness about social responsibilities. Though the book is written in a conversation style, it helps us to become a kind human-being. When you listen to the news, and all you hear is danger, terror, recession and poverty. This book discusses about an opportunity to change the foundation of human existence; to change it from an energy of fear to an energy of love. You will learn about spirits and how they can come in to help someone through a difficult situation, and then leave again when the person in need is better.

Interesting woman, but the book gives no coherent information. Too rambling, and wow, 26 sacred activations that are essential, but you get them how?

This book keeps my faith high. God is always at our side, never leaving nor get tired. He is so SACRED. We should do good things in order to live according to His will. But in this world where everything negative is present, we sometimes lose hope and lower our faith. The story of a woman's life in this book is so inspiring. She shows how her prayers were answered by God when she was in her younger years with her cat and how the spirit goes to her senses. This proves how powerful our Prayers are. All her stories are all inspiring and showing how God moved her. I really got inspired with all of these.

Tamra Oviatt is an interesting person. Her recollections of her past and her conversations with Creator are fascinating. Her ability to focus her energy to success and her direction in life kept me focused on reading more. I liked how each Sacred Activation is discussed on a personal level as an interview format in each chapter.

I loved this book! Finally a no-nonsense, deep, heart filled approach to reaching one's maximum

spiritual power that I can relate to. Filled with insight, Tamra's own journey and too many lessons to count. I was shifting just reading it. Thank you to Tamra for telling her truth. A must read!
