Advanced Spanish Step-by-Step: Master Accelerated Grammar To Take Your Spanish To The Next Level (Easy Step-by-Step Series)

Synopsis

A proven grammar-based approach that gives you a real mastery of the Spanish language Use Advanced Spanish Step by Step's progressive, grammar-based approach to conquer intermediate and advanced Spanish-language topics. This step-by-step approach gives you real confidence and the tools you need to achieve a high Spanish proficiency. You'll get a quick review of the key grammar basics, then move on to more advanced topics that you need for true mastery of the language. With complete coverage of verb tenses beyond the present and past, irregular verbs, sentence structure, parts of speech, and more, this book gives a thorough overview of advanced grammar topics. It also introduces you to hundreds of new vocabulary words that are reinforced with readings that put the new terms in everyday context.

Customer Reviews

Barbara Bregstein is a translator and Spanish instructor with more than thirty years' experience teaching at colleges in the New York City area. She is the author of the bestselling Easy Spanish Step-by-Step (McGraw-Hill).

I'm a Spanish speaker and I bought this book for my boyfriend. I took my time looking through many books because I wanted to get the best book that would show him not only grammar but that had exercises, vocabulary, reading paragraphs and I found the EASY SPANISH STEP BY STEP which

is the first book that covers basic and some intermediate on the last lessons of the book and now that he is about to finish that book I bought him the ADVANCE SPANISH STEP BY STEP. I have seen a really good improvement since the very first time he took the book. Even though he has to think a little, he is able now to say some well structure sentences in Spanish thanks to the first book and I'm sure that once he finish the advance one he will be able to follow a conversation. As a Spanish speaker I would recommend this book because it covers all the essentials and helps you not only to learn how to ask for the bathroom or where a restaurant is but to be able to communicate too. Another book I thought was good is the PRACTICE MAKES PERFECT by Dorothy Richmond however, you would have to buy the basic, intermediate and advance which STEP BY STEP covers exactly the same topics but in two books instead of three. If you want to learn Spanish you would have to be constant and grab the book for couple hours at least 3 times a week. I recommend you to combine the book with some audio CD's. Another thing I think it would help, and it helped me when learning English, was to watch Spanish TV or movies with subtitles. I took my time writing this review so I hope it was of any help to make you decide for a Spanish book.

I am enjoying this workbook. It is refreshing some things that I have forgotten! I recommend it!

I've just finished the beginning book and looking forward to having the confidence to hit the advanced.

I bought this book as a Kindle edition and really, I don't know why everyone is complaining so much about the reading of it. I have no problem seeing anything from it on my android device or my windows computer. Maybe they've change it since the last complaints? I have no complaints.....

I am beyond beginner Spanish and this book digs into the idioms and "how" to speak more like a native. There are plenty of exercises. I don't write in the book, so I can review over and over. I have many Advance Spanish books, and they are all very good, but I really love how this one is presented. Lots of new words and reading for comprehension. I would like "possible" answers to the comprehension, but other than that, this is a must have book. I'll keep looking for more like this!

excellent book, clear who, what , where. very helpful in learning my next semester in Spanish. Easy to remember instructions. The books used in Spanish class at college is useless, written in Spanish with not nearly enough English explanations. This book Teaches.

I have taken 3 quarters of Spanish at my college. And this is the BEST book that I have found most helpful. I used this book to review before test and frequently go back to check if I ever forget. (So many conjugates to remember :() Honestly, I think anyone can learn 3 quarters of college Spanish class with Easy Spanish and this Advanced Spanish book. Because it contains exactly what I have been taught at my school. It is really easy to understand that I really recommended this book to my friends who want to learn Spanish. So to people who want to learn Spanish by yourself, use this book and (Easy Spanish, first) to learn grammars and practice pronunciations and conversations on YouTube or from your friends who speak Spanish!

Very simple and helpful great learning tool
